

Dear Magic Dino,

I want to express how much your animation meant to my daughter. It was very special for her in more ways than one. Her very special companion "Cracker", her 3 year old horse, passed away recently. He has been the inspiration for many of her horse drawings (she has been very artistic all of her life), and meant so much to her. This was a very special thing for her to have her horse animate and run in the meadow and sky. You are a very special company providing a wonderful and inspiring service for people. You have done something very special for my daughter and we will spread the word to others about Magic Dino.

Thank you,

Karen Coffey
